

Do it right
the first time

About Us

Allied Clinical Management GmbH (ACM) is a specialty CRO with its focus on monitoring and site management of phase I-IV clinical trials, post marketing surveillance and investigator-initiated trials.

We employ highly trained and accomplished clinical research professionals with hands-on experience in feasibility assessments, site selection, ethics and RA submission documentation, trial set up and budgeting, clinical trial management systems, eCRFs, initiation visits, interim visits, close out visits, safety reporting, drug accountability and archiving requirements.

Your ACM Advantage

- CRAs with regular GCP documented training matching our QA standards
- Lease CRAs and realize savings of up to 25% over placement agencies
- Business-to-business framework contract allowing for quickly sourcing single or multiple CRAs on a case-by-case basis
- CRAs experienced in working on clinical research studies from international trials to regional biotech studies
- CRAs experienced in monitoring phase I-IV clinical trials
- Experience working with clients' CTMS, time-tracking and travel management systems
- CRAs focused on monitoring a limited number of studies and/or sites
- Central location for monitoring of sites in Central Europe
- Lower travel costs for distant sites – made possible by BahnCard 50 First and our special rates from our corporate partner Air Berlin
- CRAs fully equipped with laptops, UMTS cards, up-to-date software, cell phones with email function, mobile fax machines and high speed color printers enabling swift communication when out of office
- CRAs with third party liability insurance
- Mentoring and professional support for your office-based contract CRA

Integrity

GCP-trained CRAs. You want a quality partner that has the INTEGRITY to lend credence and respectability to your clinical trial enterprises. ACM is a proud member of the Federal Association of Contract Research Organizations (BVMA e.V.)

and is inspected biennially by independent QA auditors in addition to its own internal system audits. Let us use our reputation to enhance the veracity and reproducibility of your clinical trial data.

Vision

Staying ahead of the cost curve. You want a partner with the VISION to apply its resources intelligently in order to save on costs, which is essential to success. ACM can save you up to 25% on agency placement fees. Take advantage of our B2B framework contracts and let us show you how our proven structure can be the „right fit“ for your next clinical trial.

Experience

Major pharmas, established biotechs and investigators use our services. You want an established partner with a pool of trained CRAs with broad industry EXPERIENCE to monitor your clinical trial and manage investigative sites without a hitch. ACM has the collective understanding to aid you in monitoring and in site management. Let us show you how our vast and meaningful experience can help your bottom line.

Speed

Rapidly leveraging our resources. You want a partner that can work with SPEED to help you achieve your goals and still remain accurate and true to your company's clinical research project. ACM specializes in providing fast and effective services for clinical studies. Let us bring our penchant for speed and accuracy to bear upon your next clinical research project.

Communications

Mobility with accessibility. You want a partner that uses its COMMUNICATIONS capabilities to maintain contact with the PM team and highlight issues in a timely manner before they become critical. ACM can expertly use its communications technology to maintain contact with an international project team. Let us seamlessly join your project and help in monitoring your next clinical trial with the attention it deserves.

Flexibility

A pool of highly motivated, experienced professionals. When

you face personnel bottlenecks monitoring clinical trials, you want a partner that has the FLEXIBILITY to mobilize its resources rapidly. ACM has specialized in monitoring of clinical trials since its founding and has a pool of highly qualified CRAs in a constant state of readiness. Let us help you bring your client's pharmaceutical or medical device product to market faster by avoiding unnecessary delays.

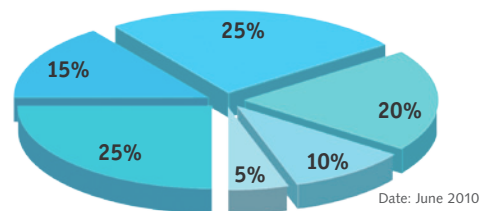

Connections

Professional relationships with investigators. You want a partner that has the insider CONNECTIONS that will make the difference by speeding your process to help you meet your deadlines. ACM's monitors have developed a collaborative working relationship with respected, international investigators in various disciplines and have become recognized as leaders in clinical monitoring. Let us demonstrate for you how important this can be in avoiding frustrating surprises during the monitoring of your next clinical trial.

Education

In-house mentoring. You want a partner that knows EDUCATION is the key to success. ACM is different because it takes the time to teach lessons learned from previous trials directly to your contract CRA. Our experience-based knowledge enables us to teach the players in your clinical trial „game“ how to „do it right the first time.“

ACM Clinical Trial Monitoring Experience by Indication

- Oncology 25%
- Female Contraception 15%
- CNS 25%
- Cardiovascular 20%
- Ophthalmology 10%
- Other 5%

Central Location

From our offices in central Berlin and near the internationally renowned Biotech Park in Berlin-Buch our clients take advantage of our pool of experienced CRAs who manage clinical sites quickly and efficiently from our central Berlin hub.

The greater metropolitan areas of Bochum, Hamburg, Kiel, Dresden and Leipzig are reached directly by high speed rail. Each of our clinical professionals benefits from discounted rail travel by utilizing tickets purchased with the BahnCard 50. Travel time to and from sites is efficiently utilized as each CRA is equipped with laptops integrated with UMTS cards, mobile faxes, and cell phones with email features.

Sites in Switzerland, Austria, Italy, the Czech Republic, the Slovak Republic, Poland and Hungary are reached by discounted frequent flyer travel, which is made possible by our corporate partner Air Berlin.
